FINALLY, JACKS FROM AC HYDRAULIC ARE AVAILABLE IN THE US.

Since 2020 AC Hydraulic has been exploring the American market and in 2024 we finally established our own warehouse and office in Charlotte, North Carolina. And if you work with automotive, that should be good news.

Our location in the US is first and foremost about getting our products closer to the end user and finding partners we can develop our business with. The Charlotte area is rich in skilled labour, and there are many potential industry partners in this region that helps us on the road to success in the US.

At AC Hydraulic, we are known for our high quality, fast service and high availability. As a customer, you are never more than an email or a phone call away from personal and competent service, and this helps to support the quality of our products.

We offer more than lifting equipment – we offer over-engineered quality that's built to last and built to win. Made in Europe and designed to last a generation, our range of Light-and heavy-duty jacks offers the longest warranty on the market. That's why there's a **"No Compromise"** under our logo.
